I see the fire in your eyes
Satanic flames that mesmerize
A voice that calls me to my grave
Oh, I can't escape

I know you hunger for my flesh
And that your love will be my death
The brightest angel straight from Hell
Oh, could nobody tell?

Chorus:
You're... the Evil that I need
With your... love my spirit's freed
You're... the one to make me bleed
'Cause you're... the Evil that I need

Time after time it stays the same
And nothing changes but the name
The tricks you play drive me insane
Oh, you bring only pain
Chorus:

Out of control I'm heading down the road to ruin
I see the warning signs but can't stop what I'm doin'

Chorus:
