Come on children mind the gap  
American people with marvelous hair  
And a knack to do anything better than anyone  
I got a home with electrical air  
And I live in a world  
Smaller than anyone  
I got a line on a new frontier  
I got a line on a new America  
All of the people are vanishing here  
I could be huge, If I could just get home  
From the outside of everything  
To the inside of you  
From the outside of everything  
To the inside of you  
Purest Aluminum people  
are walking the streets of London  
So hysterical  
Nobody here gets a word that I say  
and the problems I'm told, are more than medical  
I got a friend from the new frontier  
And Galen, she says, "this is not america" You need a

girl with electrical hair

And the words that you wanted was al-u-mi-num

From the outside of everything

To the inside of you

From the outside of everything

To the inside

I was in bed with

The girl at the end of the world

She says I'm goin home

And you should come home too

I'm at the end of a new frontier

here at the edge of the flat earth ending

I'm getting off to get lost in the air

At the end of the world where the light is bending

From the outside of everything

To the inside of you

[4X] To the inside of you

[4X
