"Black Promises"

Everything's moving backwards

It's been that way for so long

When all my cries like butterflies

Drift slowly Away

I can't relate to no one

Sifting through all my so called friends

Ain't what I like to do

But give or take my wreckage past

Dies slowly away

And now the battle's begun

(Chorus)

Black promises black promises

Face down in a hole I'm sinkin' below

Till I face myself

I'm letting go, so on with the show

Till I face myself

Nevermind all the pity

I rattle on all the snakes I knew

I chewed the bone, got criticized

And hid all the pain

Beneath it all I still face the same face

(Chorus)(Chorus
