Trees are falling more than leaves  
Make it easy blame it on me

Pleasure digging melts away  
Lizard chasing hey I'm not insane

I like I like I like chasing them for fun  
I like I like I like breakin' in the gun

(Chorus)  
I do what I want I do what I please  
There ain't a soul who'll stop me  
I take what I want get whatever I need  
There ain't a soul who'll stop me

Tease my vision soak it wet  
Explanations I'll never regret cause

(Chorus)

Forest burning, smoking sky  
No one's caring and neither am I

(Chorus)(Chorus)
