I see the headlights on the highway

I'm standing in the rain

Gonna hitch a ride to nowhere

Shake off Mary Jane

Ashes to ashes

Leave it in the dust

Don't worry about missin' me

You do what you must whoa

(Chorus)

Change no you can't change me

Into something I could never be

Sure nuff plain to see

That you can't you can't change me

Are we losing our connection

Are you somewhere on the line

Yeah I'm hearing your suggestion

But it's too late, too late here tonight

So many reasons

Everybody's out of time

I'll take my chances baby

Ooh ooh and take what's mine

(Chorus)

You know you're something to see

But you can't no you can't change me

You're somewhere in tomorrow

I'm stuck here in today

Got more trouble than a man can borrow

When you're livin' it up livin' in outer space

(Chorus)

Change you can't change me

Yeah I bet you're something to see

But you can't no you can't change me
