Honey got something to tell you
You drive me outta my mind
Crazy situation it ain't infatuation
Ain't gonna waste no more time
Back now a new day's coming
Everything is plain to see
Baby you're the one I'm missing
Do you want to be with me
What a fool I kept you hangin' on the line
I didn't care that your heart was doin' time

I know love has got a hold on me (X2)

Honey I've always been a drifter
Took a long time accepting the truth
Baby you're the one I'm lickin'
No one treats me like you do
What a fool I kept you hangin' on the line
I didn't care that your heart was doin' time
