"Rattlesnake Shake"

She's a sex machine

She keeps her engine hot

Her motor clean

Way she moves across the floor

The way she shakes her hips

And licks her lips

Come on there girl wontya shake that thing

(Chorus)

Doing the rattlesnake shake

Shake shake shake

Rattlesnake shake

Make my body ache

Rattlesnake shake

Shake shake shake

Rattlesnake shake

It's all I can take

She's got sassy class

Bring you to your knees

When she shakes her ass

She's a voodoo, voodoo child

Just one look will drive you wild

Slides through the night

With a viper's smile

Come on there girl, wontcha shake that thing

(Chorus)

Sexy motion, just take my time

The way she moves her lips

Up and down my spine

Got the rattle

Snake wants to spit

Call 9-7-6 and let my hand do the rest

(Chorus
