A preacher's daughter with a devil tattoo

Mama's little good girl sniffin that glue

Her box started buzzing ever since she heard the  
CrÃ¼e

White trash mannequin workin on a scheme

Livin on adrenaline Daddy can't redeem

She turned up the radio

And headed to the show

She needs Rock N Roll

She needs Rock N Roll

You know she's an underage angel with a dented halo

She needs Rock N Roll

Show Small town girl was a trailer park queen

Headin to the city with her starry-eyed dreams

Fistful of pills and a fashion magazine

She turns up the radio

And heads to the show

(chorus
