Smoke my hoochie
You say that I'm the Devil
Reali-THC
Marco Polo hailed it heaven
Socrates inhaled it too
Mr. President tell the truth
You're the great exaggerators
Since 1932
Telling evils of the reefer
But all thru time we've smoked the sky
Smoke the sky
Home grown vision
Complements the senses
Opens up my mind
JFK sold us freedom
Or was it just a business toke?
63 went up in smoke
He was the great seducer
Crawling from our TVs
Breathed hope into our future
And before he died he smoked the sky

Smoke the sky

When it's time we'll smoke the sky

BC hailed it heaven

I inhaled it too

Real-THC

When it's time we'll smoke the sky

Smoke the sky

When it's time we'll smoke the sky

When it's time we'll smoke the...

When it's time we'll take the...

When it's time we'll smoke the sky
