touch my gun, but don't pull my trigger
let's make history in the elevator
lock the door, shine my pistol some more
here i come, just 10 seconds longer
10 seconds to love, 10 seconds to love
pull my trigger, my gun's loaded with your love
10 seconds to love, 10 seconds to love
just wait, honey, till i tell the boys about you
bring a girlfriend, maybe bring two
i got my camera, i'll make a star out of you
let's inject it, photograph it
down to the subway, let the other boys have it
10 seconds to love, 10 seconds to love
pull my trigger, my gun's loaded with your love
10 seconds to love, 10 seconds to love
just wait, honey, till i tell the boys about you
