Found a little love, gonna make her mine,
Those damn full moons will do it every time,
I've got late nights, I've got lover's lane,
You know I'm going crazy, going out of my brain.

I've got a madman's brain, got a lover's heart,
A crazy little urge that's dying to start,
I'm gonna grab that girl, gonna squeeze her tight,
My baby ain't a baby tonight.

Midnight, midnight on Lover's Lane,
Hot love in the cold rain,
The window's fogged and we're out of sight,
My baby ain't a baby tonight.
