

Subito Pianno

"Rainbow"

Visit "[Rainbow](#)" on MotoLyrics.com

Bringing the memories that set my mind in peace
Looking for answers in the depths of the universe
Good times, bad times that's what life is all about
The future is now let's make the best and smile.

An holding each other's hands
Together we'll reach the sky looking for better
times again
Dancing over the rainbow under the stars.

There's no problem!
Get rid of the stress tonight
Don't live in a hurry
Don't miss the gaze of the sun
Comfort sincerely somebody in need
To be good for goodness a great reason to be alive.

An holding each other's hands
Together we'll reach the sky looking for better
times again
Dancing over the rainbow under the stars.

The pale blue dot
The planet we're living in
Let's take care of it
It's our home tonight
Remember that life goes by so fast
There's no problem!
Get rid of the stress inside.
