Something's wrong with my head,
I can't sleep without my pills
You are the one and I don't know why
I try to reach my second life

Everlasting pain - (live for nothing)
All alone, suicide, that's all I ask for
Everlasting pain - (live for nothing)
And I know, you justify, the death is all mine
Everlasting pain, and I don't feel alright for...

There's so much smoke in my room
This is it for me cause I can't move
I don't know why but I can't see
These little pills are just for me

Everlasting pain - (live for nothing)
All alone, suicide, that's all I ask for
Everlasting pain - (live for nothing)
And I know, you justify, the death is all mine
