"I Need You" (Chrississippi Music, Inc./Hat's Off Music, Inc. ASCAP)

We were alone and so in love
Silence speaks a thousand words

The two of us Sometimes it seems

And now you're gone I miss your touch

What happened to that bond That force field

Between us? Between the two of us

Stories untold CHORUS x 2

The night grows colder

I miss you Let's talk it over

Can't get you off my mind Let's compromise

Not the love you left behind You can't get over

Oh, let's leave it all behind us

Chorus:

I need you I need you, yeah

You know it's true You, you know it's true

I know I'm wrong Girl-

You're right this time I need you

Whoa... Need you

Need you
