I see you here, I see you there
I see you everywhere I go
I'll watch you here, i'll watch you there
And girl I wanna let you know

I wanna meet you girl, I wanna meet you in the evening
I wanna love you girl, I wanna love you in the morning
I wanna meet you girl

You look so fine, and even when
I look into your beauty eye
And now your gone, and i'm alone
I really wanna let you know

I wanna meet you girl, I wanna meet you in the evening
I wanna love you girl, I wanna love you in the morning
I wanna meet you girl

And girl you are, the best that
I've ever seen in my life
You're so devine, and you're so so fine
You'll be mine for the rest of time

I wanna meet you girl, I wanna meet you in the evening
I wanna love you girl, I wanna love you in the morning
I wanna meet you girl

I was a fool, to see you go
And now I wish I said hello
But now i'm here, and you're all alone
I really wanna let you know

I wanna meet you girl, I wanna meet you in the evening
I wanna love you girl, I wanna love you in the morning
I wanna meet you girl
