I'd like to change you here now, but that's not right  
I lose myself, blinded by your lights  
as I'm learning to fly here with these broken wings  
bringing myself closer to these dreams  
but I'm not like you

I need, I bleed with your constant games  
just give me names, now who's responsible  
it's impossible for me to live this way  
redeeming myself almost every day  
I'm trapped inside, I've got no place to hide  
I can't believe you lied, you have no shame  
but I'm not like you

(chorus)  
mind imprisoned, my soul is free  
blinded by facts of reality  
twisted by fate with nothing left to see  
a minute in time is like eternity

this time I will rise (2x)  
you know I'll rise above you this time

I see these walls closing in till I can't breathe

panic floods me, turns my thoughts to deceit  
need a break before I snap, time bomb  
now everyone please stand back while I slip into the  
cracks,  
eliminate your mack  
I need to relax now before I break you in half  
your world has turned to aftermath  
now you're scattered out like ashes amongst the floor  
you're coming back no more  
you've wasted all I gave  
and nothing left to take  
your life is driven by  
suppress your inner hate  
your only disguise, the cause that sealed your fate  
now as I rise, labeled you were the fake

this time I will rise (4x)

mind imprisoned, my soul is free  
blinded by facts of reality  
twisted by fate with nothing left to see  
a minute in time is like eternity
