[Chorus]

She's a real gone baby-baby-baby
She's a real cool baby-baby-baby
She's my everlovin' baby-baby-baby
Well, I need my baby-baby-baby
Well, I want my baby-baby-baby all the time

Everytime I meet my baby on the street
I shake all over, right down to my feet
Here she comes with that cute little swing
I feel like buying her a diamond ring
Well, I want my baby-baby-baby all the time

[Chorus]

We'll go to the juke joint and really hop
We'll rock all night and we just won't stop
Later when it's over, we're sittin' in the car
We'll kiss and cuddle while countin' the stars
Well, I want my baby-baby-baby all the time

Everytime I meet my baby on the street
I shake all over, right down to my feet
Here she comes with that cute little swing
I feel like buying her a diamond ring
Well, I want my baby-baby-baby all the time

[Chorus]
