You're on the take  
You're on the take

He always said she'd go big time  
She always wore something new  
Oh what a surprise in the news today  
You know that she got a rave review  
Now tell me what are ya thinkin'

He gave her everything he had  
She said and did all the things winners say and do  
I heard you called her and said suicide was sad  
She heard the rules of the game from you  
Now tell me how do you feel, how do you feel because

You're on the take  
You got it all worked out now  
You're on the take  
I heard you said it before  
What was at stake  
You're on the take  
She ain't around no more

You're on the take  
You know you are  
Just give me a break  
You'll stop at nothing at all  
His life was devoted to loving her  
You're on the take  
She gave in to him again and again
