Your never sober always drunk
Amazing how he's still around over and again he bites
down holds his tongue

Oh we never knew how you felt before
You think you'll honestly be missed Delusions and
grandure a part of alcohol, but abstaining would be
wrong

Always the one who's strung out kept thinking that you
would be left out
if they all see a side of you less fun he plays his game
then loses
And you get naked on request
With whiskey plus vodka comes streaking, all they have
to do is say your
name and it's o.k.

Always the one who's strung out kept thinking that you
would be left out
if they all see a side of you less fun he plays his game
then loses
