Forgot the chorus and I fucked the bridge I played it  
twice  
yeah I just got to take a minute out  
I need a rest I need to get myself some timing what I  
needs my  
metranome

It keeps us all in time.....and it goes

Tick tock tick tock another hand and it would be a clock  
Yes I know what my metranome is for

Who sez you need it when your playing punk rock  
You can't hear the difference but I hear the difference  
Out of tune guitars and a load of sloppy bass lines

I've just got to get my metranome

It keeps us all in time.....and it goes

Tick tock tick tock another hand and it would be a clock  
Yes I know what my metranome is for

Perpetual motion is not a crime but in this house we  
obey the laws of  
thermal dynamics  
Were going bop shoowop shoowop bop shoowady  
waddy .....

Tick tock tick tock another hand and it would be a clock  
Yes I know what my metranome is for
