Look down at my badge and it sez joe people call me  
average  
Well I've been working here years and I'm in need of a  
break  
I'm beginning to think this jobs a mistake

Although the moneys good I just can't go out  
cos I've been working here part time

Shure I get food and a little beer and four weeks  
holiday each year  
But my boss is a dick and my uniforms shit give it two  
weeks I think I'll quit  
Although the moneys good I just can't go out  
cos I've been working here part time

Although I say that I will be leaving I kind of know that I  
never will  
I've got big plans I'll say that I'm worth more I'll say that  
I'm worth more  
than just stacking shelves

Although the moneys good I just can't go out  
cos I've been working here part time
