The motherfuckers don't want to f*** with me and
don't want to blow away my head with a soldier missile
I want to blow them their p****es and want to shot
away their f***ing dicks. I have My own grow plantage
in my garden and smoke all hemp what I get I want to
make myself a joint but that's the problem I don't know
how!!!

So I take this bong and that's also a blubber,,, blabber
to watch that belly get fatter fat boy on a diet don't try it
I attack your ass like a looter in a riot so go f***
yourself
