"Goodnight & Goodbye"

This time, this time she said
I'll be there 'till the end
I won't let you down now
I'm tired my friend
Of letting you down now

So wait for my eyes to close before you leave me
And wait for the sun to rise before you say goodnight
and goodbye

This time, this time she said
It's more than just pretend
My hearts beating so loud
I'm trying my friend
To let it all out now

So wait for my eyes to close before you leave me
And wait for the sun to rise before you say goodnight
and goodbye

So wait for my eyes to close before you leave me
And wait for the sun to rise before you say goodnight
So wait for my eyes to close before you leave me
And wait for the sun to rise before you say goodnight
and goodbye
And goodbye
