Take your time before I'm gone  
Why is everybody wrong  
I am alone, alone, alone  
I am alone, alone, alone

What is my problem  
Taking the fall  
Should've done something  
After all  
Because I can't keep falling down  
Anymore

All that's said is still in slip  
To misbelieve  
And make me leave  
I am alone, alone, alone  
I am alone, alone, alone

What is my problem  
Taking the fall  
Should've done something  
After all  
Because I can't keep falling down

Don't believe that you're the one  
Don't believe that you're the one

What is my problem  
Taking the fall  
Should've done something  
After all  
Because I can't keep falling down  
Because I can't keep falling down  
Anymore

(I am Alone, alone) can't keep falling  
(I am Alone, alone) can't keep falling  
(I am Alone, alone) can't keep falling down
