VERSE ONE: You come to me / & ask me what I need / a
roaring sea inside of me / a test of wits / do I know the
call / given the choice / will I
stand or fall / VERSE TWO: You come to me / & ask me
what I see / the Power of You / or frailty of me / as
Adam did / will I do again / now that I'm called Your
friend / VERSE THREE: You come to me in the middle of
the night / a gentle breeze / as an eagle takes to flight /
I know You're here / but I cannot see Your Face / is this
my time & place / VERSE FOUR: In the cool of the day /
You said I'd hear you say / arise & stand / your moment
is at hand / it's your choice / & only you can choose /
you've heard My Voice / now will you win or lose /
VERSE FIVE: Come Oh Lord / You'll find an open door /
& if I could / You know I would give You more / there is
a love / meant to be revealed / from above / no longer
concealed / yes I will stand for You
