To a bunch of fucking fags that can't potentially harm me?  
I ain't never gonna bow down to your expectations  
By the way, I got sixty fucking Wolves that'll guard me  
That skate hard, Thrash black hoodies, try something  
Make sure your fuckin' feelings end up up in a Glad bag  
Fuck all your opinions, I'm tyin' 'em with a shoestring  
And fuck the fat lady, it's over when all the kids sing

[Hook]

[Interlude]

I'm not saying to go out and do some stupid shit, commit crimes

I'm a fucking unicorn, and fuck anybody who say I'm not. Wolf Gang

[Bridge]

Fuck your traditions, fuck your positions

Fuck your religion, fuck your decisions

See, they're not mine, so you gotta let 'em go

See, we can be ourselves, but you gotta let us know

You gotta let 'em go

[Outro: Dr. TC]

You gotta let these shits go, man

It's not making sense to you right now but

All these little dreams you got, they're not shit

All this rebellion, all this crazy shit you got, saying this shit

Getting too old for this shit, man, you gotta grow out of it

Growing up, your dreams are getting bigger

You gotta look at reality, understand that shit so you don't get caught

I'm just being real (nigga, fuck you)

I'm just trying to help you man, trust me

(Look, I mature day after day nigga

You don't know shit, you're a fucking therapist)

Whatever
