Front page news
Always in the headlines
Same old story
A different girl every time
Always working on your game
I know it all too well
You say your never to blame
Just keep em under your Spell

Well I say
Extra Extra read all about it
Your so black and white
Extra Extra cancel my subscription
I've been played for the last time

Yesterday's news
Nobody wants you now
It's time to pay your dues
And take your final bow
Said we were meant to be
But that was just a lie
It's time to set me free
Cuz this is my goodbye

Well I say
Extra Extra read all about it
Your so black and white
Extra Extra cancel my subscription
I've been played for the last time

I don't want to hear your stories
And I don't want to hear your lies
I'm tired of al your late night alibis
I don't want to hear your stories
And I don't want to hear your lies
I'm tired of al your late night alibis

Well I say
Extra Extra read all about it
Your so black and white
Extra Extra cancel my subscription

I've been played for the last time

I don't want to hear your stories
And I don't want to hear your lies
I'm tired of al your late night alibis
I don't want to hear your stories
And I don't want to hear your lies
I'm tired of al your late night alibis

Extra Extra read all about it
Your so black and white
Extra Extra cancel my subscription
I've been played for the last time

Extra Extra read all about it
Your so black and white
Extra Extra cancel my subscription
I've been played for the last time
