Watch me as I scream and shout
The secret that I'm letting out
Is tearing me apart

Hold that smile
This will only hurt for a while
Does it hurt you to say

This feels so familiar
I can place it without losing something first
Hold my breath, take aim and I'll spit curses

Someone call the doctor
'Cause I'm losing all my patience
I swear nothing says I love you
Like revenge

Where did it all go wrong?
Where did it all go wrong?

Tell me when this moment feels right
I'll be your poison tonight
She's in my head
Should I have said
This time I'm yours completely

So don't hate me now
Roll the rage in the sea now
With this much life you can't go wrong

Kiss me so hard
You'll bruise and you'll bleed
And I'll leave you a scar
For you to remember me
Hold your hand in mine

Tell me when this moment feels right
I'll be your poison tonight
She's in my head
Should I have said
This time I'm yours completely

Where did it all go wrong?
Where did it all go wrong?

I wont say a word
When all your bridges are burned
My head and your heart say
You're so far away
You're so far away

Tell me when this moment feels right
I'll be your poison tonight
She's in my head
Should I have said
This time I'm yours completely

This time I'm yours completely
