

48May "The Window"

Visit "[The Window](#)" on MotoLyrics.com

Every day has got it's own sound.
Follow through and come around.
I'm running out of time.
I'm running out of time.
I'm running out of time.
Make a break for the window.
Light it up take a go.
Its better than it's ever been before.
Make a break for the window.
Light it up take a go.
Its better than it's ever been before.
Make the most of my misfortune.
Maximise the moments made.
I'm running out of time.
I'm running out of time.
I'm running out of time.
Make a break for the window.

Light it up take a go.
Its better than it's ever been before.
Make a break for the window.
Light it up take a go.
Its better than it's ever been before.
Make a break for the window.
Light it up take a go.
Make a break for the window.
Light it up take a go.
Make a break for the window.
Light it up take a go.
Its better than it's ever been before.
Make a break for the window.
Light it up take a go.
Its better than it's ever been before.
