Cancer inside, in this state
Metastases everywhere
Beyond the normal life like it's presented
there is rotting shit and we're lost
We are blind

All those things are just working
to destroy all in this state
that we had done in the past
For profit of the chosen ones
they'll lie directly to your face
forever, foreverâ€¦

When we reign us ourselvesâ€¦
People are broken and no one is able
to break through this fiction
The truth's protected well

All those things are just working
to destroy all in this state
that we had done in the past
For profit of the chosen ones
they'll lie directly to your face
forever, foreverâ€¦

We'll break the silence
The system doesn't work
Hate is created
I see it in your face

Just what I see is pure insanity
No one will hear you when you're calling
They don't care how we are now suffering
The only resolution is now onlyâ€¦

Fight!!
We rise!!
Deratization!!
Fight!!
We rise!!
Deratization!!

We'll break the chains of slavery
There is no other way out
Fight!!
We rise!!
From the pain we riseâ€¦.

How long we'll gonna tolerate this state?
Will you pay?
Will you pay?
Your arrogance is so unlimited now
Will you pay?
Will you pay?
When the chalice of wrath is flowing over
our honor is at stake
You just crossed the line and we are no more slaves
We will rise and fight
We're not down on our knees
crushed by the fear

All those things are just working
to destroy all in this state
that we had done in the past
For profit of the chosen ones
they'll lie directly to your face
forever, foreverâ€¦

This means warâ€¦
