First it's this, then it's that
You swing me like a baseball bat
Sacrifice meaningless
When eyes are guns and words are fists
Pop it in, you pump me up
All until you've had enough
To tell the truth I wish I could
Walk away I know I should

I'm angry, I don't wanna say
What is making me feel this way
I'm angry, I don't wanna say
What is making me feel this way

Creeping in it dawns on me
It isn't what I want to be
Am I getting through?
I'll make my point
Soon you'll find another joint
I don't wanna be a wannabe
I wanna be plain old me
Don't have to know why I'm gone
Because I put it in this little song

I'm angry, I don't wanna say
What is making me feel this way
I'm angry, I don't wanna say
What is making me feel this way

I'm angry, I don't wanna say
What is making me feel this way
I'm angry, I don't wanna say
What is making me feel this way
