I wanna get going, gotta get going
So pick me up
I don't wanna hear about not enough time
We've only got tonight, so
Take it all put our money together
We gotta give away hey
I don't wanna hear about nothing to do now
Nothing is easy, nothing is easy

Nothing is easy, nothing that I care about
Nothing is easy, nothing that I care about
Care about

I don't wanna hear about any of it anymore
We gotta move on
I'm watching you, are you watching me?
Can't you see that
There isn't anybody else that I wanna fight with
We love a fight, so
I don't wanna hear about taking it easy
Nothing is easy, nothing is easy

Nothing is easy, nothing that I care about
Nothing is easy, nothing that I care about
Care about

Nothing is easy, nothing that I care about
Care about
