"Pick Me Up"

Visit "[Pick Me Up](#)" on MotoLyrics.com

Thought we'd settle down, take everything head on
Or maybe we'll just leave it behind
Either way it's you, what I'm coming to is
I'm never gonna leave you behind
On our separate ways then in sixty days
We will come together once and for all
Say the word, please say it, say something
Say you love me and you'll love me always

Pick me up, pick me up, you pick me up...

So I guess it's time that we say our goodbyes, and
If you don't want to do it I will
Be with me now, please shake me awake if I am
Sounding like I need to wake up
And before I go won't you let me know
We are gonna make it, oh we are gonna be alright

Pick me up, pick me up, you pick me up...
