"Was There Really Any Chance?"

Visit "[Was There Really Any Chance?](#)" on MotoLyrics.com

Fast cars, is there any other kind?
I'm not looking behind
Drug czars at our little private school
I wanna be cool, I wanna be cool

Was there really any chance that we wouldn't survive?
Was there really any chance that we wouldn't survive?
I don't wanna know about staying alive
Was there really any chance that we wouldn't survive?
No no

Girlfriends, they're always hard to find
When you're losing your mind
On the school day it's not the only way
I wanna be true, it's hard to be true

Was there really any chance that we wouldn't survive?
Was there really any chance that we wouldn't survive?
I don't wanna know about staying alive
Was there really any chance that we wouldn't survive?
No no
No no

I don't know how long it's gonna last
We gotta get home home home
It's not an easy ask ask ask
It's not easy
It is OK I got us a ride, see
We're going to the light show
All alone, it'll be the two of us in stereo
We're bringing out both sides, bringing out all the
sides

Was there really any chance that we wouldn't survive?
Was there really any chance that we wouldn't survive?
I don't wanna know about staying alive
Was there really any chance that we wouldn't survive?
No no
No no
