Revolution.

whenever the authority is soaked into corruption
whenever people are deceived ,neglected and
forsaken
wherever anyone might be , inside a new uprising
there's always solidarity and hunger to be free

we are the same you and i can show...
(our generation's rage)
I'm not afraid walking side by side ,
(brothers sisters say , this is the new uprising)

You cannot stop us as we march across the land
(Sick of the devolution)
You cannot kill me while the gun is in my hand
(Kick-start the revolution)

Cannot avoid the violence with false abuse of power

n cannot tame the animal awakening tonight
it only takes a single spark to turn it all to ashes
the city is a battlefield where some will never die

it's all been written down in history ,we will rise again
(this is the new uprising)

You cannot stop us as we march across the land
(Sick of the devolution)
You cannot kill me while the gun is in my hand

Kick-start the revolution
Kick-start the revolution
Kick-start the revolution

Kick-start the revolution
Kick-start the revolution
Kick-start the revolution
