"Gaia..."

Our egocentric minds built the Babel tower  
Apocalyptic sight pixel up in TV color  
And I Â... I can't believe it to this day. We did not see it  
comin'.

She will reclaim it all (like she has done before)

Wooo I can feel it comin, yeah!

CHORUS:

And as I lay there in the final hour I see it all before my  
eyes.

The rays of sun light up the sky that's falling down  
Turn the page Â... the seasons change. Yeah.

The way we stood the test of time Can no longer follow  
Don't need more proof to realize Our heart is dry and  
hollow.

Wooo and still we look for something yeah!

CHOR:

She will reclaim it all  
She will reclaim it all  
She will reclaim it all  
She will reclaim it all

CHOR:

"Gaia..."
