(VERSE 1)

All I Did,i Did,For You and me
for better for worse Shawty never go stay with me
promise make you queen,days evergreen
nothing shall come in-between us,lemme guarantee
i could be your shoulder,when you feeling weak
you can lean on me,always gonna be there for ya
got this feeling crushing me,when you not there
feeling like dying,and when you there
feel like happiest man on earth
treasure each moment,spent with you babe
never felt this before,love you more and more babe
couldn't ask more,thank the lord yeah
your a blessing from the sky,never wanna see you cry
when am feeling sad,just got think of you
cause always caught my best mood/best smile/best of
me
cause every time a feel like knock down,
always there rise me up to untouchable heights.

(CHORUS)

Untouchable,Untouchable,Untouchable
doesn't matter how far we go,
Untouchable,Untouchable,Untouchable,
will face all the obstacles
having you by my side,feeling so right,
nothing matters more than feeling your warmth girl
we were two,but now we only one,in this world
and we are untouchable.

(VERSE 2)

We were like twin,destined be on same team
i was seventeen,you were just sixteen
we had it all,i taught we made it bro
when i heard you lost your dad,felt like lost someone,
i cherished most
dry your eyes bro,know you in pains bro
never forget the dear lord shelter us from the rain

i was so young,when he left and gone
miss him more than words could ever express my
feelings
so had to pray,pray hard for the lord, lead my way,beg
for his grace
hope you find your way,no time's late,no talents a
waste
just stick to your dreams make it come real,
never forget where you from,
family always there for ya,always remember i will be
there for ya
i know how to make it out the streets,
here the prove me,Mag, Stelion made it out through
Music

(CHORUS)

Untouchable,Untouchable,Untouchable
doesn't matter how far we go,
Untouchable,Untouchable,Untouchable,
will face all the obstacles
having you by my side,feeling so right,
nothing matters more than feeling your warmth girl
we were two,but now we only one,in this world
and we are untouchable.(x3)
