Don't want the moonlight
Don't want the starlight
Don't want to hear the song they play
That's certain tonight

I'm sad and lonely
Long for you only
For you're the only one who knows
How to console me

If you could hear me
You'd hurry near me
Bringing me all the love I need
To really cheer me

What good is moonlight up above me
With no one here to love me
Don't want the moonlight
Just want your love light

(Strings solo)

If you could hear me
You'd hurry near me
Bringing me all the love I need
To really cheer me

What good is moonlight up above me
With no one here to love me
Don't want the moonlight
Just want your love light

Only your love light

Don't want the moonlight
