[Put you thru it]

[put you thru it]

[Chorus: J'Son 2x]

Girl i never meant to hurt you
didn't mean to put you thru it ooh
girl i never will desert you
please try to understand it ooh

[A.E.]

No

misscommunication it ruined relations
it's a proven statement that love loses placement
so you gotta stick thru the issues datin
quick determination to get thru the basics
basically your gangsta was incredible
i refuse to let go
attached like velcro unseparable
but stormy weather normally measures
in a mix of orderly bliss
i'm so sick it's terrible
but at the same time i got a game mind
play with pain has my hands tied like gang signs
so what's the reason for ya
up and leaving
see i'm tough but my strengths not enough to ease it
i need ya
you developed a rare case of amnesia
memories lost having him or me thoughts
but get it together, stick with it together
you're my home and i'm in it forever
listen to me mami

[Chorus]

[Ice Kid]

I never thought in a million years
i'll be sitting here holding back these tears
reminiscing, missing, and wishing for those intimate
nights
we'd be so into it never wanted there to be a "in to it"

you'll always be the apple of my eye
those other girls before
you know why
when you walk by my side
we have babe you can't deny it
you were my woman in public and my freak in private
you hated the way i acted
i acted bad
i know it made you mad, made you sad
so i will change ma just to show you much
i care about you and never wanna break up
cuz in those mornings when i wake up
with some chick i just met
i regret
but i hope you forget
we've been thru to much
for you to throw it away
i know i put you thru it
but baby please stay
[Chorus]

[Milly]

Oh
ma listen up
i'm confessing it
but i din't mean to put you thru all that stress and ish
so let's manner this
with togetherness, stop all that devilness
so we can settle this
all of that pain and hurt
with all my days at work
gave you every reason to go insane and go biserk
but yo i'm here right now
so let's just clear it out
together forever you and me babygirl
that's no doubt
that's what it's all about
aye ma that's all that counts
look my feelings true
everything i feel for you
it's so divine you was mine
one and only boo i'm missing you
hugging and kissing you
reminiscing about them thangs we used to do
late nights after school
i know you rememeber to and never again
will i leave you sad and blue
i'm sorry my friend
for all them things i put you thru

[Lil Brotha]

Now baby don't you ever forget that i love you to death
and i never meant to put you thru stress
but a brotha gotta do what he do to make a living for
you to keep you laced
in bagets
cuz you got me goin crazy finna catch a case
don't you wanna be in diamonds on a daily base
doing everything that you wanna do and always keep it
straight
going out of my way to put a smile on my girl's face
now you really trying to leave and it's hard to believe
but i know i gotta
live thru the pain
try to hold back the hurt but it really don't work
man i lost my girl to the game
you gone i need to be with you
maybe my love will come get you
girl let's work out these issues cuz babygirl i miss you
[echo: i miss you, i miss you, i miss you, i miss you]

[Chorus]

[J'Son]
I never never never
meant to hurt you no
hurt you oh yea
yea yea

[Put you thru it]
