try to slip
try to slip away
does it feel the same if you turn the other way?
how does it feel if you turn the other way?
do you feel the same?

and i see it coming back to me
and it all takes to too much energy
theres these things that i just can't believe
like how they turn away from me
how they turn away from me

try to slip
try to slip away
does it feel the same if you turn the other way?
how does it feel if you turn the other way?
do you feel the same?

and i see it coming back to me
and it all takes to too much energy
theres these things that i just can't believe
like how they turn away from me
how they turn away from me
