"Tonight"

Visit "[Tonight](#)" on MotoLyrics.com

your eyes
glimmer in the light
on this perfect night
our hearts could beat as one

the vibe
as I look around the room
girl turn up the volume
my heart is set on you

don't think,
you will never know its
perfect
when baby we've got tonight
tonight
tonight
don't speak
only words would complicate
this
when baby we've got tonight
tonight
tonight
when we've got tonight

the lights
and the atmosphere
girl you're just so clear
to me
tonight

your hand
guides me through the crowd
cause it's way too loud
to hear
you breathe

baby as the moon gets brighter
it'll light that fire in you

don't think,

you will never know its
perfect
when baby we've got tonight
tonight
tonight
don't speak
only words would complicate
this
when baby we've got tonight
tonight
tonight
when we've got tonight

and there's no time to talk
when were racing the clock
till sunrise

so lets let it all go
girl I wanna to know
about you

don't think,
you will never know its
perfect
when baby we've got tonight
tonight
tonight

don't think,
you will never know its
perfect
when baby we've got tonight
tonight
tonight
don't speak
only words would complicate
this
when baby we've got tonight
tonight
tonight
when we've got tonight
