"Take A Chance"

Visit "[Take A Chance](#)" on MotoLyrics.com

if life is a game they say i cant win
I'll never amount to nothing
tear me down before my life begins
i wont be afraid to challenge myself
they wont break my fire
my dreams wont die if I high five the skies
spread my wings take off its time to fly
take a chance to make it all the way
take a chance forgetting yesterday
take a chance believe
nothing will bring me down
no retreat when I leave all my fears behind
my futures still alive inside
take a chance chase my doughts away
believing gets me though my darkest days
take a chance to make it all the way
take a chance forgetting yesterday
take your breath my heart will lead the way take a
chance
i'll take a chance in today
