"Left To Suffer"

Visit "[Left To Suffer](#)" on MotoLyrics.com

It's safe to say you love her so
We bleed ourselves on no remorse
In searching for this one true night
In leaving her you'll suffer alone

Fall
I care for her

The way it feels with you next to me
A certain sense of security
From two worlds this bond is formed

If you believe in me you'll suffer apart

Fall to your knees
I care for her
Crawl back please
I'm left to suffer alone

You Fall to your knees
I care for her
Crawl back please
I'm left to suffer alone
