Black Betty by Carpophonica

Let me introduce myself, I'm Black Betty
Come in the middle of the night
To steal your dreams, To read your mind
You will not notice me when I'm next to you
Every time you'll fall, I'll be your shadow
They call me, Black Betty
Let me get in, don't resist
It will be useless, you will be mine
You will not notice me when I'm next to you
Every time you'll fall, I'll be your shadow
Get out of my way, Black Betty
(You'd like to hate me, but can't forget me)
Get out of my way, Black Betty
When you are down, when you are blue,
Is that Black Betty is around you, , Black Betty
She is walking next to you, Black Betty
Get out of my way, Black Betty
(You'd like to hate me, but can't forget me)
Get out of my way, Black Betty
