Cassie Talbott - Perfect Pair

Or the tires on a car  
We were meant to be together  
You should know this by now  
Like a shoelace on a shoe  
Or the buzz from a kazoo  
We were meant to be together  
You should know this by now  
You don't have to worry  
This will be forever  
Cause baby, you and me  
Are perfect for each other  
Like the clouds in the sky  
Or the crust on a pie  
We were meant to be together  
You should know this by now  
Like leaves on a tree  
Or the stripes on a bee  
We were meant to be together  
You should know this by now  
You don't have to worry  
This will be forever  
Cause baby, you and me  
Are perfect for each other  
Even if we're like fish in a tree  
I won't mind cause I'll still be  
There for you whenever you call  
Darlin' our love, can never fall  
You don't have to worry  
This will be forever  
Cause baby, you and me  
Are perfect for each other
