"Embellishment Of Flesh"

Bitter and malevolent
Suppression starts to fade
Purge to be pure
To awake the entity
Desire of flesh
Victim of lust
Bludgeon them
Asphyxiate
Defile them
Embellishment
Refine their flesh
Defile them
Modus operandi
Watching from the dark
Visions of macabre
Modus operandi
Dentiform signature perforates her flesh
We are your sons
We are your husbands
We are everywhere
There will be more of your children dead tomorrow
Separation
Head from body
Segregated
Mind unravels
You feel the last bit of breath leaving their bodies
A person in that situation
You are god
Separation
Head from body
Segregated
Mind unravels
