### "American Farmer"

Visit "[American Farmer](#)" on MotoLyrics.com

It all starts with a family  
Planting a little seed  
Say a prayer that the roots grow deep  
'Cause it's all grown naturally

Our home is here in the heartland  
Where we work and earn these calloused hands  
Generation of dedication and honor  
The American farmer

There's new ways of harvesting  
Same crops bigger machines  
Working hard is an everyday thing  
That's the way it will always be

Our home is here in the heartland  
Where we work and earn these calloused hands  
Generations of dedication and honor  
The American farmer
