"Good Time"

Visit "[Good Time](#)" on MotoLyrics.com

It's time to celebrate
It's time to open up
Throw your cares away
And get them bottles up

Lift your hands high
No more crying ...
Music all around
Dancing to the sound

Don't let problems get you down
Let ... move around
No matter who you are
You're a star

So get ready

Everybody in the place
If you're ready to have a good time
Put your hands in the air
Let's go
Let's go
Come on

Are you ready for a good time?
Are you ready for a good time?
And if you're ready sing along with me

Are you ready for a good time?
Are you ready?
Are you ready for a good time?
And if you're ready sing along with me

It's time to raise your hands
It's time to scream and shout
Party all night long
And let your problems out

Get into this groove
Make your body move
Dj play that song

I need to get it on

Don't let problems get you down
Let ... move around
No matter who you are
You're a star

So get ready

Are you ready for a good time?
Are you ready?
Are you ready for a good time?
And if you're ready sing along with me

Are you ready for a good time?
Are you ready?
Are you ready for a good time?
And if you're ready sing along with me

Are you ready?
