Video party we had last night  
Chainsaw Massacre gave me a fright  
Blood'n'guts'n'overkill  
Too late punk write your will

Scream & jump as the blood goes pump  
The sight on the screen will make you scream ha-ha-  
haaar

We got pissed to start the adrenalin gushing  
The speed Paul got really had us rushing  
Wayne was so smashed that he went home  
He was back ten minutes later cos he was alone  
(chorus)

What was that noise behind my chair?  
I got up to see just what was there  
Too shit-scared to have a look  
The baby's dead he's got no head I think I'm gonna  
puke

Crud had a bird so he went to bed  
She was vampire's bride but she gave good head  
We all crashed out at around about two  
Then the video nasties come 4Q (for you)
