There are objects falling from the sky  
As I wipe the sleep from my eyes  
Is this the day that I will die  
Or is this a nightmare alive in my eyes

It's a sight I never thought I'd see  
3000 deaths happen in front of me  
Are you awake to see  
The world we know is crumbling

It's emergency on Church St.  
Emergency inside of my heart  
We bleed on Church St.  
We all run to Battery Park

Still distraught still dismayed  
Still afraid it will never change  
Tick tock the clock it's counting down to doomsday  
Can we make it stop can we try to stay  
Can we try to stay

It's emergency on Church St.  
Emergency inside of my heart  
We bleed on Church St.  
We all run to Battery Park
